EMPOWERING STUDENTS FOR AN AI-DRIVEN TOMORROW: ESSENTIAL 21ST CENTURY SKILLS

In an era dominated by artificial intelligence, the 21st Century skills that distinguish humans from machines are more vital than ever. While traditional educational **curricula** focus primarily on **hard skills, durable skills**, which are essential for success in the modern world, are primarily developed in **extracurricular** activities. Unfortunately, most after-school programs do not target the development of these crucial competencies explicitly, nor do they seek to measure them.

KEY CONSIDERATIONS

When bringing esports into schools, many schools don't know where to start. We've evaluated every option looking at balancing these key considerations:

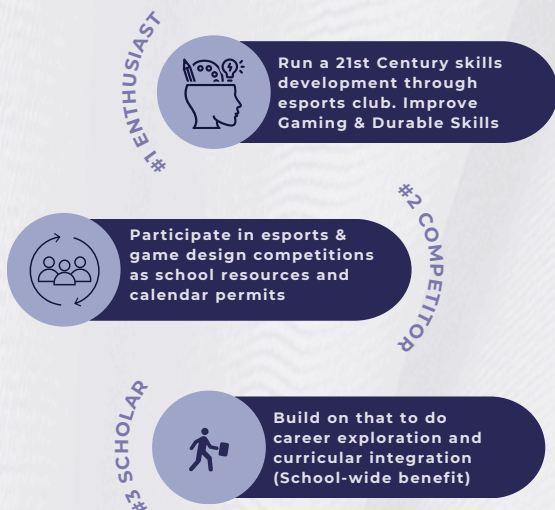

Educational Value: How does it build students' skills?

Seamless Integration: How easy is it to integrate (hardware and teacher capacity)?

Capacity Building: Does it help build up teacher capacity/knowledge in esports?

Sustainability: How sustainable is the approach? Will it survive if the teacher running the program leaves?

OUR RECOMMENDED BEST PRACTICE

AFTER-SCHOOL CLUB TARGET SKILLS

WHY START WITH DAIGON'S CLUB?

1. Ease of Implementation

Get started within a day using your existing infrastructure. No additional equipment needed!

2. Structured Learning Objectives

Each session comes with clear goals, focusing on both esports techniques and life skills, ensuring comprehensive progress.

3. Evaluation and Benchmarking

Regular assessments allow you to track your students' growth, adjust training methods, and consistently improve team performance.

4. Proven Results

Join numerous other schools that have witnessed enhanced student engagement and success through DAIGON. [See testimonials](#)

Core Skills: Critical Thinking & Teamwork

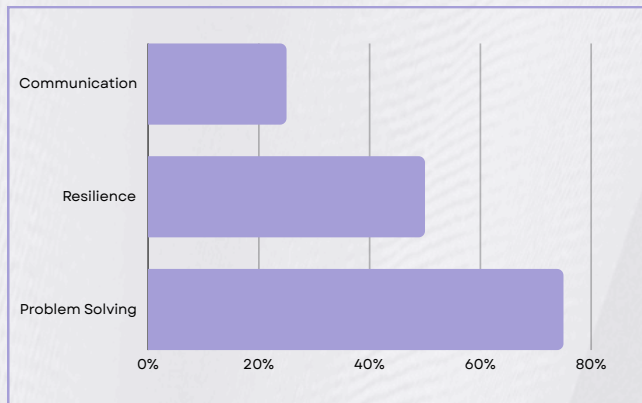

Your students have improved their critical thinking skills by 25 percent since participating in the club.

Your students also improved their teamwork skills by 15 percent since participating in the club.

Other Skills

Teacher Insights

"This term I saw a real progress in teamwork and this translated into friendships built during the club. I also many more discreet students come out of their shell"

- **Christine Doe**

SAMPLE TERMLY EVALUATION REPORT

In today's dynamic landscape, mastering 21st-century skills such as critical thinking, collaboration, and digital literacy is crucial for students to thrive amidst constant change and technological advancements. With the increasing significance of digital technologies and AI, DAIGON's Esports After School Club serves as an ideal platform to enrich these skill sets while providing an engaging experience for students.

Student Engagement

98%

Out of the 10 sessions this term, students rated 98% as excellent

Throughout this term, students have been honing their **critical thinking** abilities, essential for effective problem-solving, and refining their **teamwork** skills, vital for collaborative endeavors.

Student Testimonials
